OMD Mk7 remote display power supply connector

Product overview

The connector is used to connect the user supplied power cable directly to the OMD Mk7 remote display unit without the need for additional interconnections.

The connector is supplied with sealing gasket to ensure an IP32 seal when fitted to the remote display unit.

Details

- Connector mates with the power connector on the OMD Mk7 remote display unit
- Allows termination of a single cable between the remote display unit and the user power supply
- The connector is suitable for the connection of cable conductors up to 1.5 mm2
- Suitable for cable diameters between 4.5 and 10 mm
